

Thematic maps for the deanery of St Therese of Lisieux

June 2016

Output area coverage

— estimated boundaries

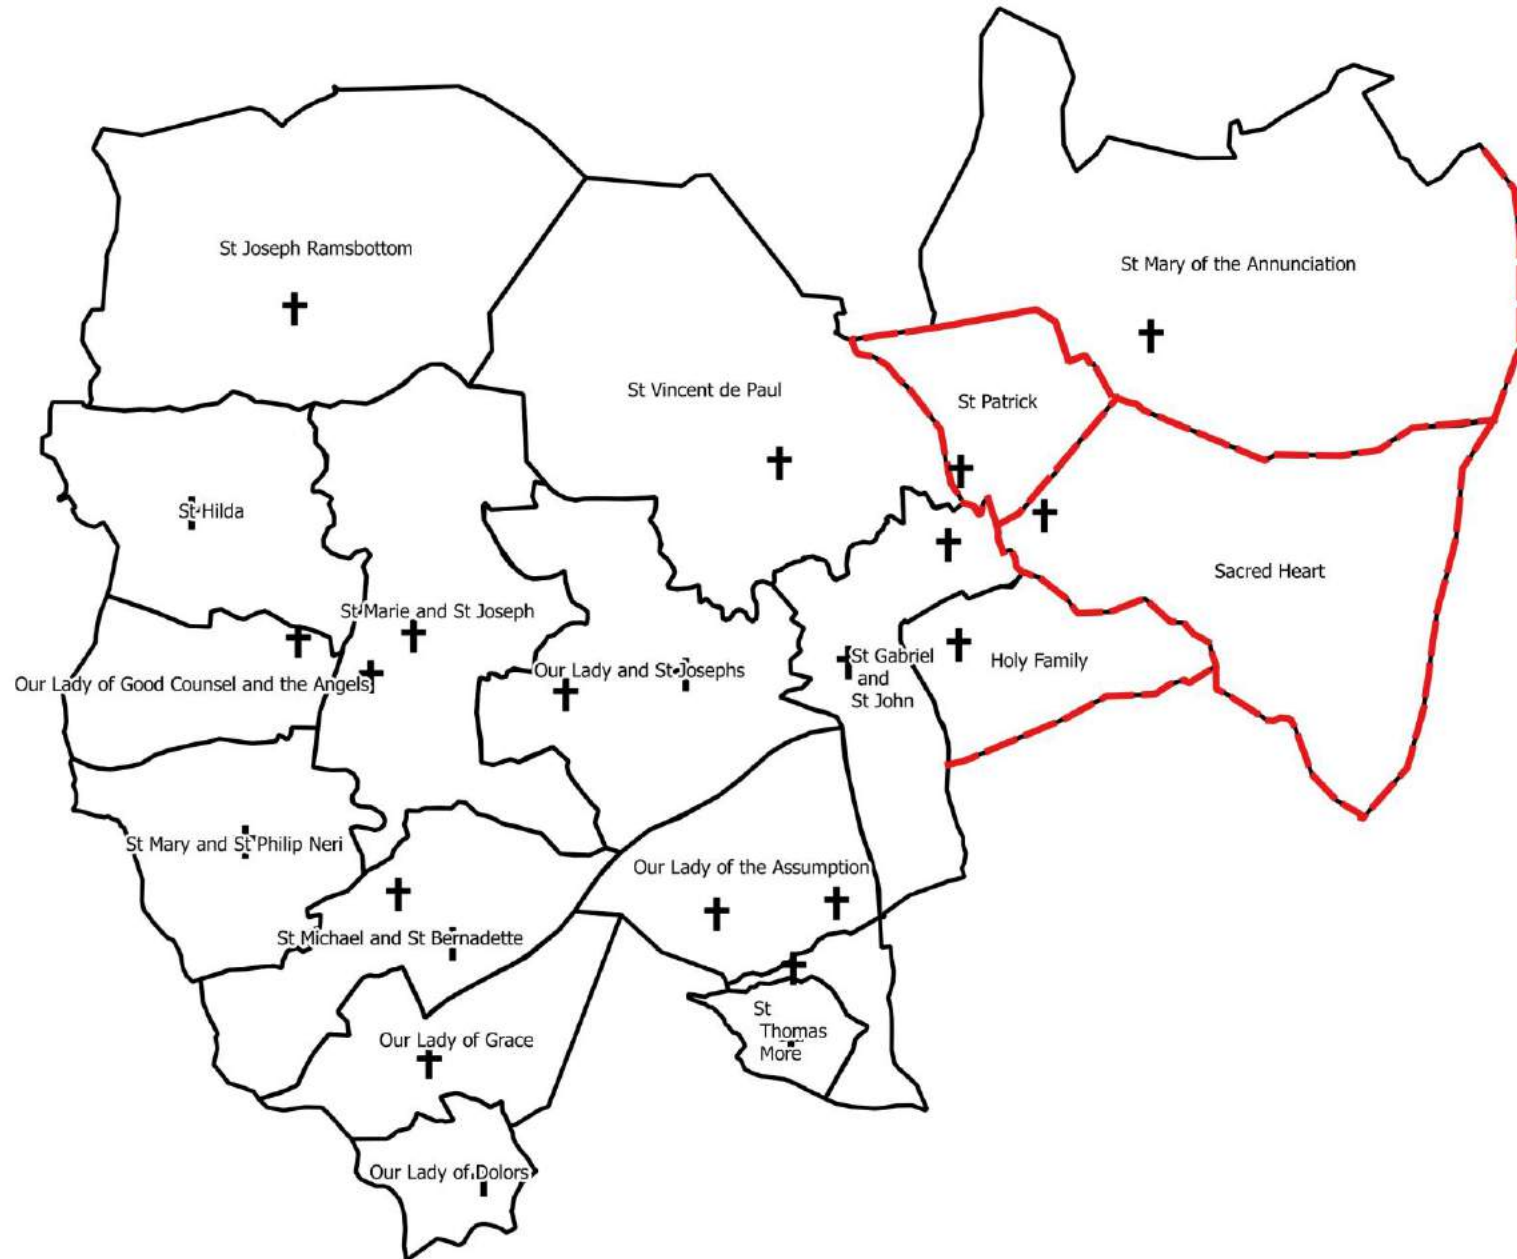

This map shows the output areas used for each parish to produce the estimates. The match is generally good, however there are few instances where it was not possible to align Output Area and parish boundaries - this is mainly the case for more sparsely populated areas.

Location of churches

This map shows the location of churches in each parish in the deanery.

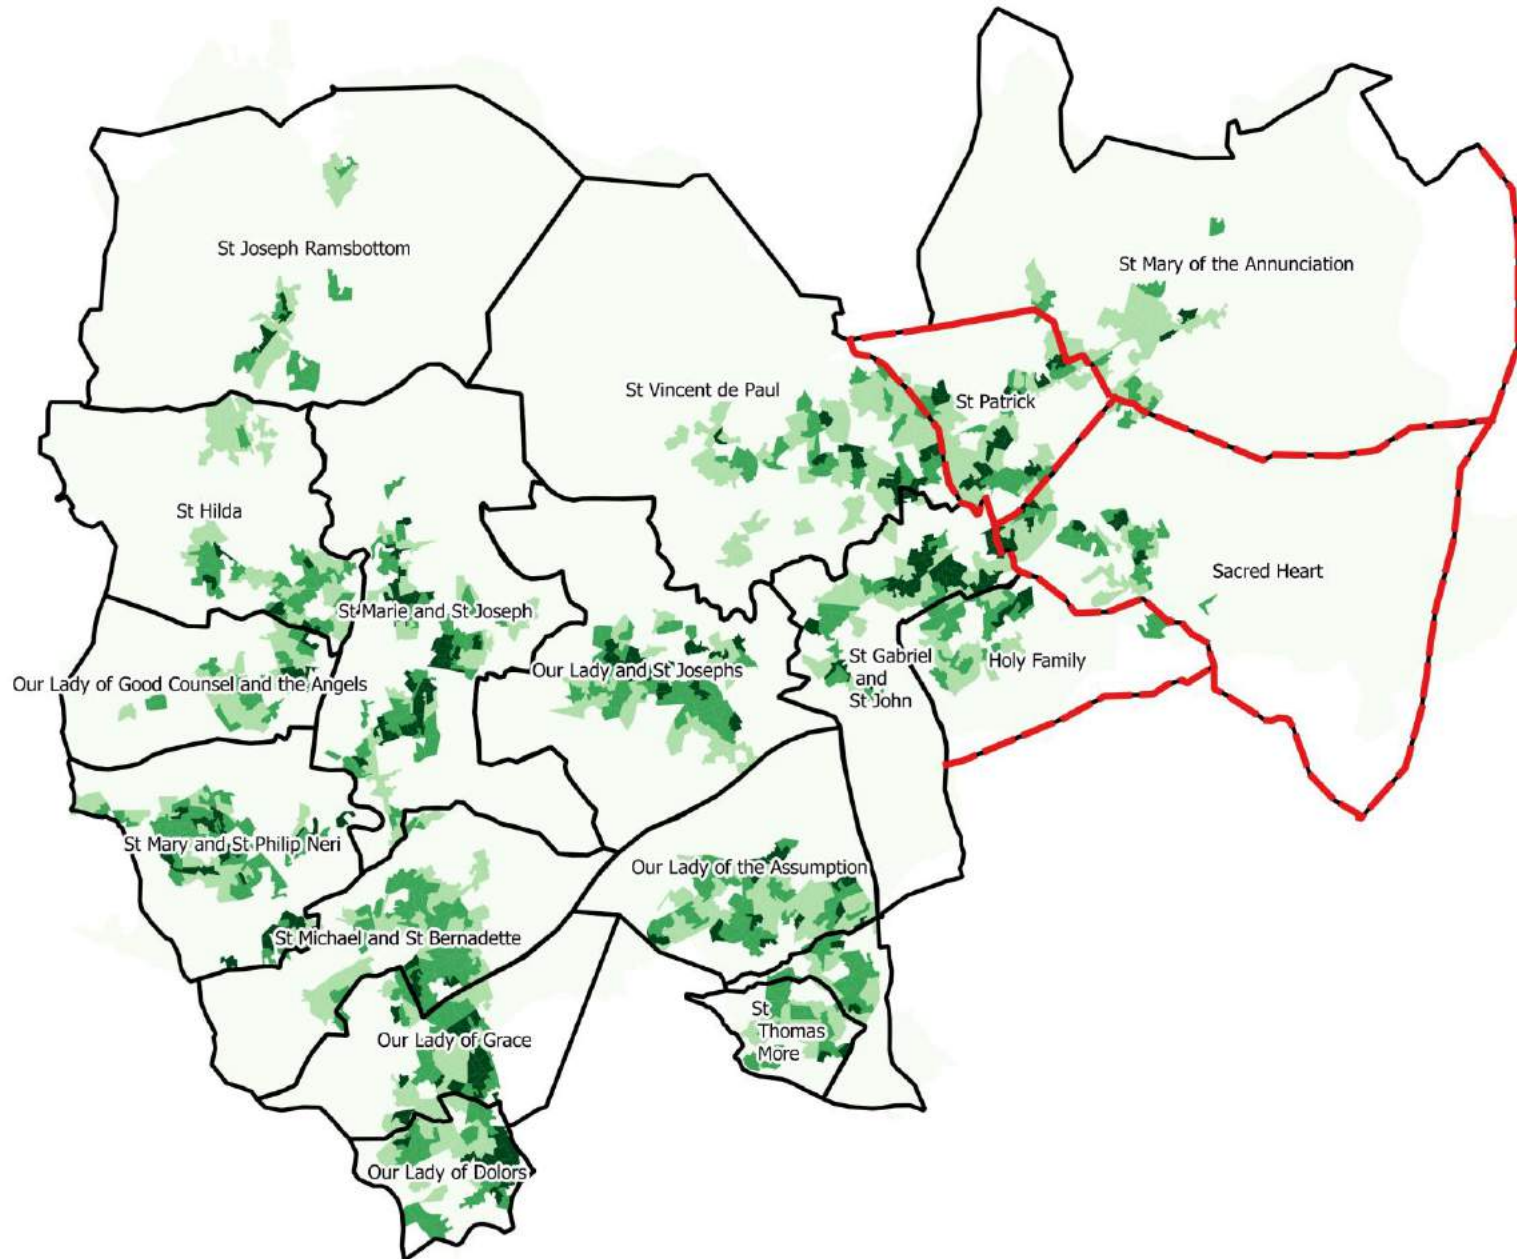

— estimated boundaries

Population density

This map shows the population density, based on 2014 population estimate at the Output Area level. The density is expressed on number of persons per hectare.

— estimated boundaries
